

Chief of Police, Anthony Daykin

CAMPUS WATCH ALERT

The University of Arizona Police Department has established a Twitter account as an addition to the other methods of communication currently used to enhance our ability to reach as many of our community members as possible with important information. Twitter will be utilized to notify the community of Campus Watch Alerts, UAlert notifications, crime prevention tips, and UAPD activities. Twitter is a social network which allows Twitter users to communicate through the exchange of short messages limited to 140 characters. UAPD will not routinely monitor this account. It is intended primarily as a means to send information out.

To sign up and follow the UAPD Twitter account, go to <http://twitter.com/UofAZPolice> and click on the follow tab.
